LEDCOM International Selected Among 120 Companies by the Italian Trade Agency “Global Start up Program”.

29 May 2019

Promoted by the Ministry for Economic Development, through the Italian Trade Agency / ICE (Istituto per il Commercio Estero), the program was established in order to support the international expansion of the most promising Italian start-ups.

The selected companies will have the opportunity to join a foreign incubator or accelerator focused on the start-ups' same market. Hosting countries include the US, UK, China, Japan, South Korea and Slovenia.

Ledcom International was allocated to the Austin (Texas) region, a specific US area currently experiencing a disruptive and booming growth in Internet of Things and Smart City related projects and investments.

About LEDCOM International

LEDCOM International S.r.l. is a leading manufacturer of lighting control gear, lighting wireless controls and smart city applications. Its LED drivers are recognized as the top quality control gear in the market and, among other advantages, they stand out for their capability to integrate inside the same form factor wireless communication functionality at multiple frequencies without additional external boxes. Through its CellLED® project, LEDCOM is also turning the street lighting system into a pervasive next generation mobile communications infrastructure.
